

TAPTI TECHNOLOGY

One Platform. Your Entire Hospital.

Tapti HMIS — the cloud Hospital Management & Information System.
From OPD to discharge, lab to pharmacy, billing to insurance —
everything your hospital runs on, on any device.

OPD · IPD · OT · LAB · PHARMACY · BILLING · INVENTORY

www.taptitechnology.com

ABDM READY

Still running your hospital on registers, Excel and disconnected software?

One login replaces five systems

Reception, wards, OT, lab, pharmacy and accounts work on one screen — patient data flows automatically between every department.

100% cloud — zero IT headache

No server room, no maintenance staff, automatic backups. Works on phone, tablet and desktop — check your hospital from anywhere, 24x7.

Faster billing, fewer leakages

Every charge captured at source. OPD, IPD and diagnostic billing with deposits, discounts, cashless, TPA and Mediclaim — tracked end-to-end.

Future-proof & compliant

ABDM / ABHA digital health integration built in — link patient health IDs and stay ahead of India's digital health mandate.
